Package Contents

Pc-Check™ Windows®

Single package contents: (1) Eurosoft USB Program Device containing the Pc-Check Windows application and other utilities; (1) USB extension cable.

For additional USB Program Devices or licenses, please visit the Eurosoft web shop for fast purchasing <http://www.eurosoft-uk.com/shop/> alternately contact us for volume purchases and site licenses.

Quick Start Guide

Pc-Check™ Windows®

Read the Pc-Check Windows Manuals first, all documentation can be found in the folder labelled 'Manuals'.

1. Insert the Eurosoft USB Program Device labelled Pc-Check Windows into the machine running a Windows operating system.
2. Execute PcCheckWindows.exe to start using the application, alternately run the application using the provided script file 'PcCheckWindows.cmd'.
3. To create self-booting media, execute WinPEImageCreator.exe to install the media creator application. This requires Windows 8.1 x64 or above. Instructions for using the application are in 'Manuals\WinPE Image Creator.pdf'.
4. To check for and perform upgrades to Pc-Check Windows, or to renew the product license execute the included eTestManager.exe application which can be found in the 'Tools' folder on a machine running a Windows operating system that has access to the Internet. Follow the on-screen prompts. For any issues with the upgrade or renewal process email the 'err.log' to support.

For more information or support please reference the included product documentation or contact us for further assistance.

USB extender cable usage: Insert this extender into a USB port on the unit under test to reduce wear and tear on your Eurosoft USB Program Device.
